	Josh Allen	BUF	\$8,900	\$8,400	BAL	51.5	2	14	2	32	.29	0.67	37.67		Slate-Breaker	Allen is the clear top spend up for me at the position. He's a dual threat who is going to throw the ball 40-50 times in a game with the highest total on the board.
	Jalen Hurts	PHI	\$8,600	\$8,200	JAX	47	3	7	19	30.78		0.87	55.67			Hurts has been phenomenal through 3 weeks and his rushing ability gives him a tremendous floor and ceiling. I think we see him continue to play at a high level, but his elevated price makes him a less obvious play than in prior weeks.
	Jared Goff	DET	\$7,600	\$5,900	SEA	49.5	16	29	17	19	.14	0.49	5.00		GPP	Goff and this Lions' offense are pretty good and the match-up here against Seattle is GREAT. Swift is out, so look to pair Goff with either Williams, Reynolds, or St. Brown.
	Marcus Mariota	ATL	\$7,300	\$5,600	CLE	49.5	15	19	12	18.27		0.62	30.67		CASH	Mariota's running ability gives him a decent floor here and this game with Cleveland has some of the most fantasy potential as both defenses have been pretty mediocre.
	Geno Smith	SEA	\$6,600	\$5,400	DET	49.5	25	25	3	15.73		0.41	5.00		CASH	Call me crazy, but I think Geno is playable in cash this week if you want to punt. He's been fairly effective and we've seen the Lions allow big games to opposing passers even in wins.

	Christian McCaffrey	CAR	\$8,800	\$8,700	ARI	42.5	30	30	80	15	20.00	50.00%	17.33		GPP	I think CMC continues to be intriguing on DK at this price, we know what he can do and he has been effective the last two games, just hasn't scored yet. I like the upside in this spot.
	Derrick Henry	TEN	\$8,600	\$8,300	IND	42.5	8	27	39	19	19.67	50.00%	14		GPP	I think Henry is a compelling GPP play. We saw him finally break out last week and this is a sneaky good spot against Indy, a team that he has had success against in the past.

	Nick Chubb	CLE	\$9,200	\$7,900	ATL	49.5	6	24	77	27	22.00	60.00%	23.63		Strong	Chubb has had a great start to the season and continues to be underowned in DFS and people get nervous rostering him with Kareem Hunt stealing snaps and touches.
	Najee Harris	PIT	\$7,000	\$6,700	NYJ	42	21	32	68	7	16.67	71.40%	12.87			I hate it, but I am actually on Najee this week. This Jets defense is not good and the Steelers always want to establish the run and probably have very little faith in Mitch to lead the passing game at this point.
	Jamaal Williams	DET	\$7,400	\$6,100	SEA	49.5	12	31	82	8	15.67	88.90%	15.9		CASH	CORE PLAY IN WEEK 4. Williams is badly underpriced on DK for his increased role in this lineup without Swift.
	Dameon Pierce	нои	\$6,800	\$5,600	LAC	44.5	29	18	61	5	16.67	85.70%	10.57			Pierce looks like he should be the lead back from here on out and played well last week. He's not a safe play, but one of the cheaper bellcow backs on the slate and the Chargers are banged up on defense.
	Khalil Herbert	СНІ	\$7,200	\$5,700	NYG	38.5	32	25	85	13	12.33	50.00%	16.77		CASH	UPDATE: MONTY IS OUT! Now Herbert becomes a nice source of value on this slate based on what he did last week as the lead back.
	Josh Jacobs	LV	\$6,500	\$5,500	DEN	45.5	20	4	80	30	16.33	100.00%	10.7		GPP	Jacobs is cheap and getting the majority of touches so far this season. The match-up here isn't ideal, but his passing game role thus far does help out a bit.
