| QB | Name | Team | RotoBaller Analysis |
|-------------|-------------------|---|--|
| | Joe Burrow | CIN | I am skipping the top-3 most expensive QBs on the sheet this week and starting with Burrow who has a great matchup here against the Browns defense and most of his weapons healthy. He's playing well and could shred this secondary. |
| | Geno Smith | SEA | Geno keeps on producing so I won't doubt him here against a very mediocre Panthers secondary. Hopefully, DK Metcalf plays as he's really developed a great rapport with him. |
| | Kirk Cousins | MIN | Cousins has a solid matchup here and this game is going to shoot out, I am convinced of it. |
| | Jared Goff | DET | It's Goff for me in cash and I am not even considering anyone else. He's at home where he's been phenomenal and this is the game we want to target as much as possible. |
| | Ryan Tannehill | TEN | Tanny is not a guy I would entertain that often, but the Jax defense is a pass funnel unit that should key heavily on Derrick Henry and force the Titans to throw. He has only a few healthy receivers, but stacking him with Woods or a TE is a super cheap stack that opens up a lot of cap space. |
| RB | Name | Team | RotoBaller Analysis |
| | Derrick Henry | TEN | King Henry is always in play, but you can clearly see from the data that the matchup and game environment isn't all that good. |
| | Dalvin Cook | MIN | Cook is very much playable in all formats, I just like these next four backs more for cash this week. I will have a lot of Cook in tourneys, though. |
| | Joe Mixon | CIN | Mixon has an elite matchup against Cleveland and there's been no indication that he won't step right back into his lead back role with 60-70% of the touches. We know he has a ton of TD upside, too. |
| | Tony Pollard | DAL | I'm playing Pollard in cash on FanDuel and I think both backs have a path to 60-100 yards and a score this week as the Cowboys could just run for days against this Houston defense. |
| | Ezekiel Elliott | DAL | Zeke in cash on DK as his price there is silly low compared to his FD price. |
| | Miles Sanders | PHI | I'm not opposed to using Sanders in cash on a site like FanDuel where he's cheap. This matchup is excellent and he's been getting in the end zone lately. |
| | D'Andre Swift | DET | Swift is that dude and is getting more and more touches as he's healthy. At his price point, he could definitely break this slate if he scores twice or breaks off some big plays. |
| WR | Name | Team | RotoBaller Analysis |
| | Justin Jefferson | MIN | Jefferson was shut down by the Lions in their first meeting, but he's smashed against tougher secondaries before and you simply can't fade him in this spot. |
| | Ja'Marr Chase | CIN | I'm playing Mixon in cash, but stacking the Cincy passing game in GPPs. Chase looked good last week and has the big play potential we are looking for in tourneys. |
| | Amon-Ra St. Brown | DET | Just play him in cash again and don't even think twice. The price is getting steep but this is not the week to jump off. |
| | Christian Kirk | JAX | I love Kirk this week! He's probably going to be overlooked in this price tier, but he's the guy for the Jags and they're going to have to pass it 50 times here against Tennessee and their stout run defense (and bad pass defense). |
| | Amari Cooper | CLE | Cooper should play this week and has been solid this season. We are waiting to see if Watson can unlock his ceiling - stay tuned. |
| | Garrett Wilson | NYJ | I think Wilson is cash viable again with the high volume of targets and his capable QB getting him the ball. |
| | DJ Moore | CAR | I hate playing Carolina guys, but Darnold got us another 20 DK-point game from Moore in Week 12 and this matchup is decent. |
| | Adam Thielen | MIN | Thielen is going into my cash builds currently as my cheap Minny exposure. He had a nice game against them earlier this year as they chose to bracket Jefferson in coverage. |
| | DJ Chark Jr. | DET | Play Chark in tourneys as a pivot off St. Brown, he's coming on strong and way too cheap for this spot. |
| | Isaiah Hodgins | NYG | Hodgins has emerged as a solid option for the Giants lately, though seeing Richie James back this week dampens my enthusiasm a bit. |
| Chris Moore | HOU | If you have to punt a WR position, I think Moore deserves consideration as the top punt due to the Texans being entirely out of receivers with Cooks and Collins both on the shelf. | |
| TE | Name | Team | RotoBaller Analysis |
| | Travis Kelce | KC | I'm not prioritizing Kelce this week, but he's always in consideration pretty much every week. |
| | T.J. Hockenson | MIN | Love this spot for Hock (revenge narratives aside) as the Lions struggle against the TE. |
| | David Njoku | CLE | Njoku is back this week and has a QB upgrade, assuming that Watson is less rusty this week. |
| | Greg Dulcich | DEN | Dulich is a cash lock now that Sutton is out for Denver. He should get plenty of targets from Russell Wilson as the Broncos will most assuredly be playing from behind and have to throw. |
